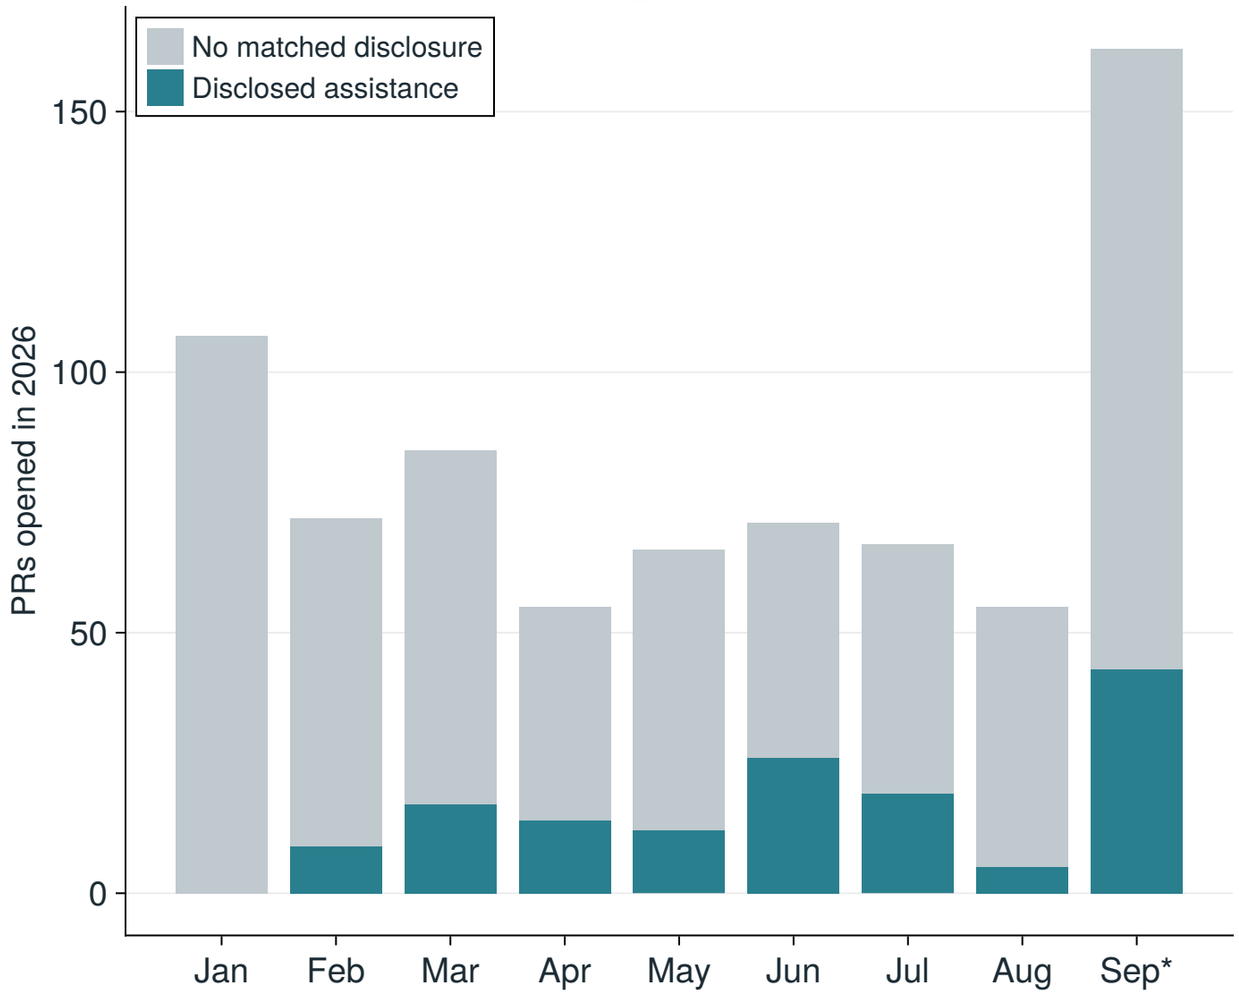
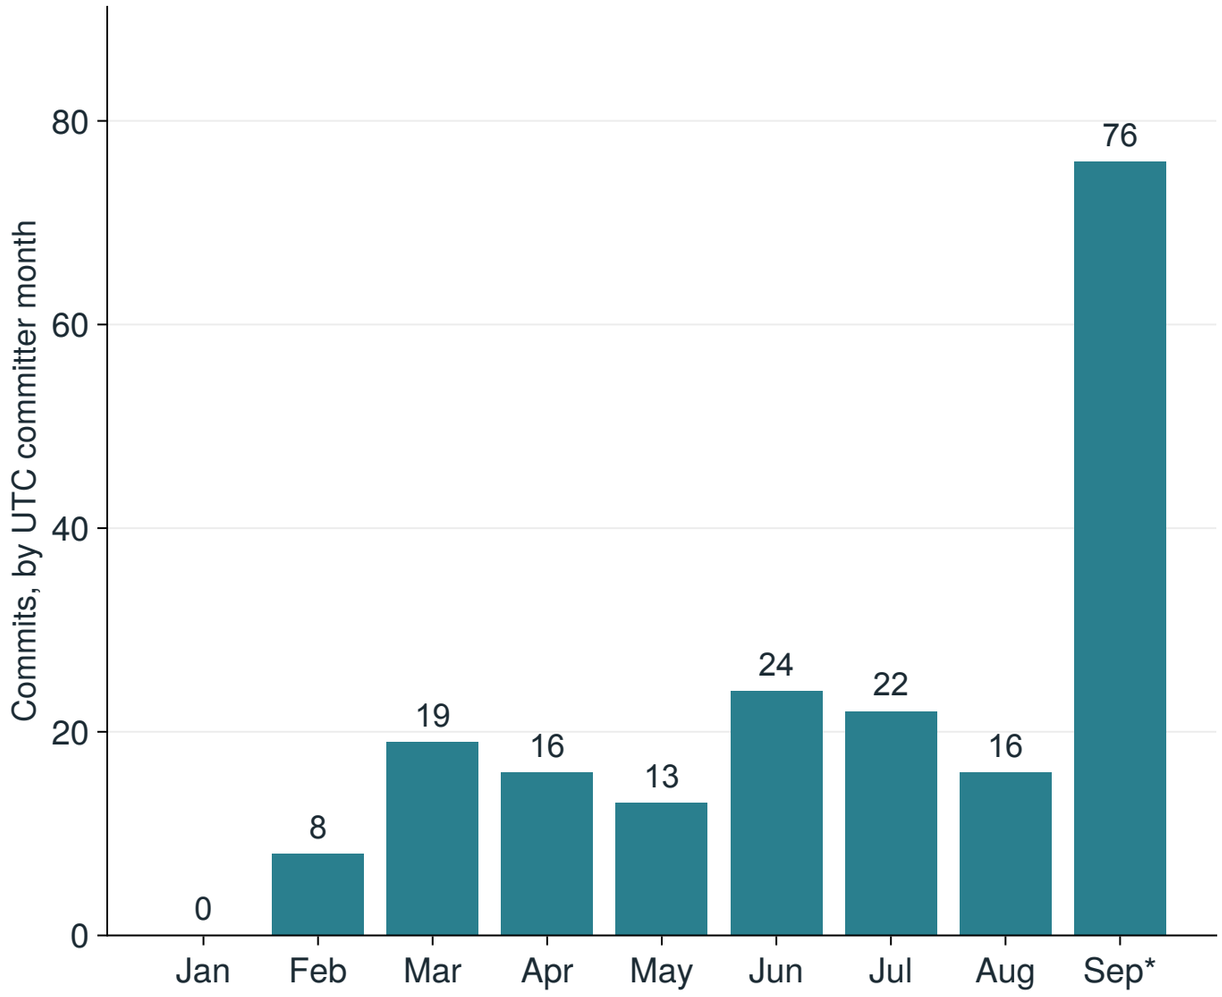
AI assistance leaves a measurable public footprint

146 human-opened PRs disclose assistance • 15 authors • 194 retained commits credit Claude as co-author

PR descriptions disclosing AI assistance



Claude co-author trailers in retained commits



Co-author credit ≠ autonomous authorship. No retained commit names Claude as its primary Git author.

Source: PR descriptions + main-branch Git history, 30 Sep 2026. *September is partial through collection time.
Disclosures include footers and explicit acknowledgments; they do not identify how much code was AI-written. PR text can be edited later.
Missing disclosure does not mean no AI use. Description-only / logo-only / tool-configuration mentions excluded; bots excluded from PR panel.
