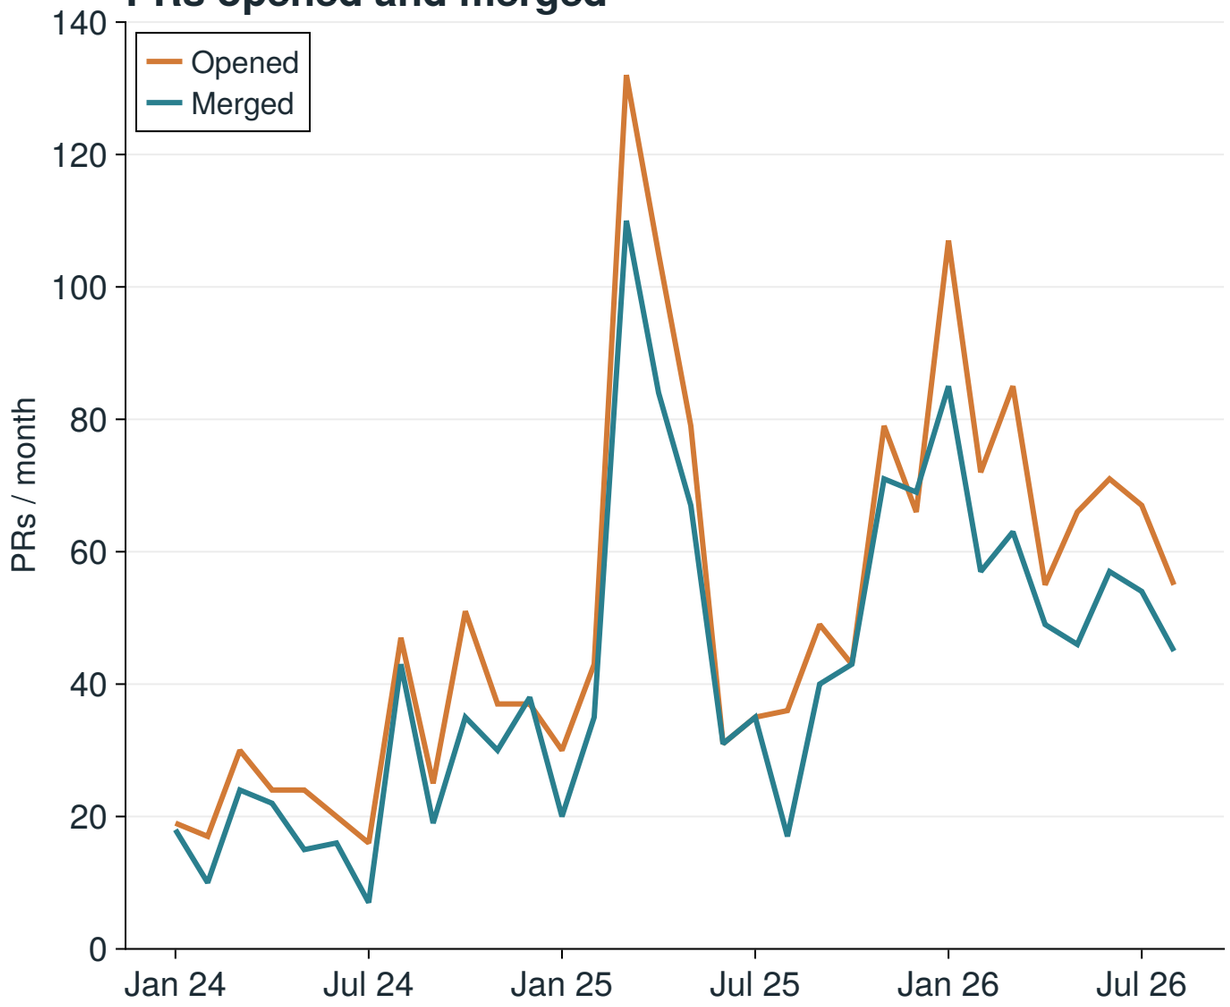
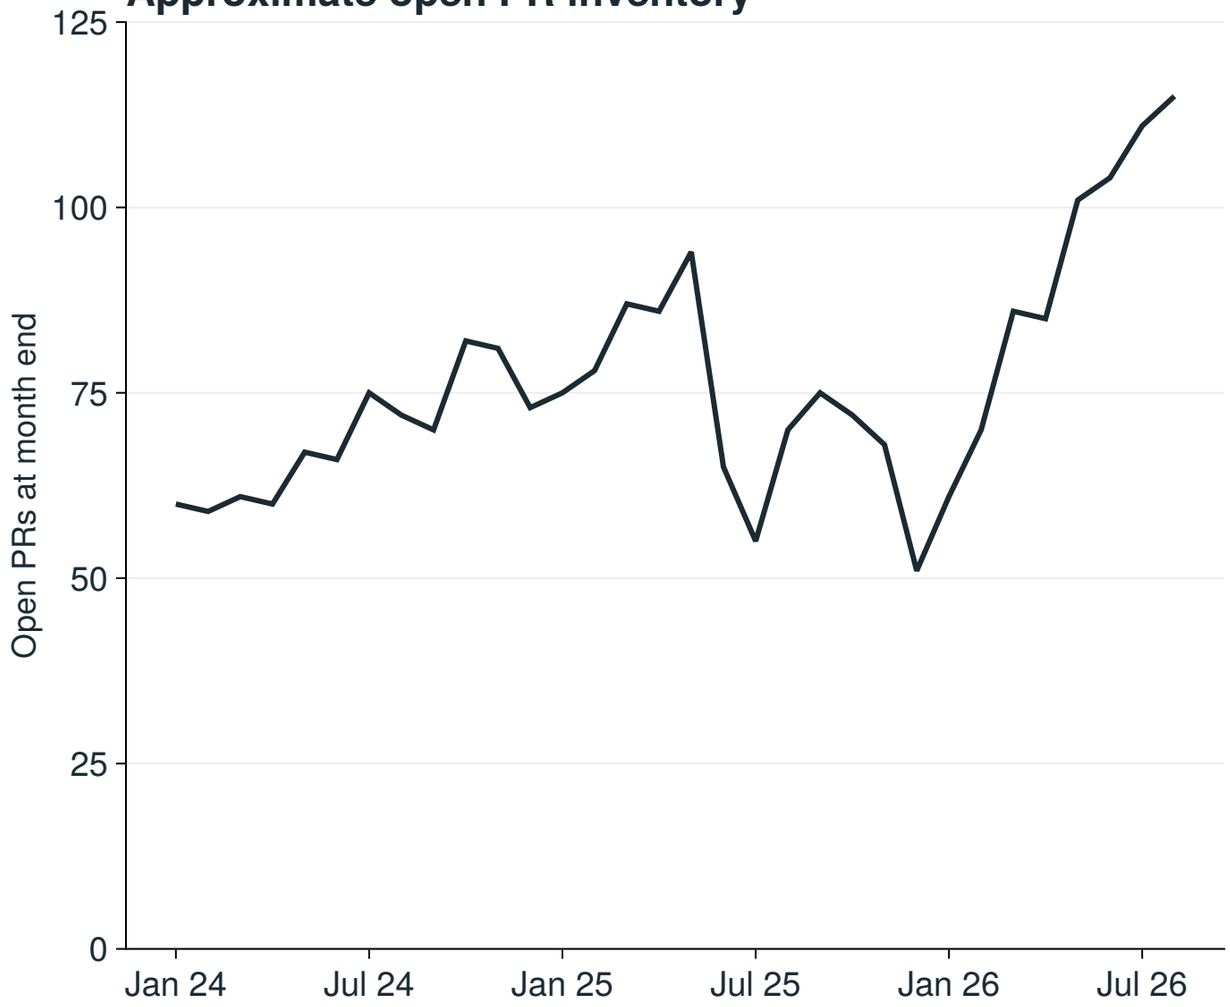
Incoming PRs and open inventory both increased

Human PRs, January 2024–August 2026

PRs opened and merged



Approximate open PR inventory



Open inventory: 51 at end-2025 → 115 at end-August 2026

Source: CliMA/Oceananigans.jl PR metadata, 30 Sep 2026. Inventory uses creation / final closure dates; excludes reopening history.
Open PRs may be drafts, waiting on authors, blocked by tests, or awaiting review. Inventory does not measure reviewer workload.
A review-bottleneck claim needs review events, PR size/type, contributor mix, and adoption dates.
