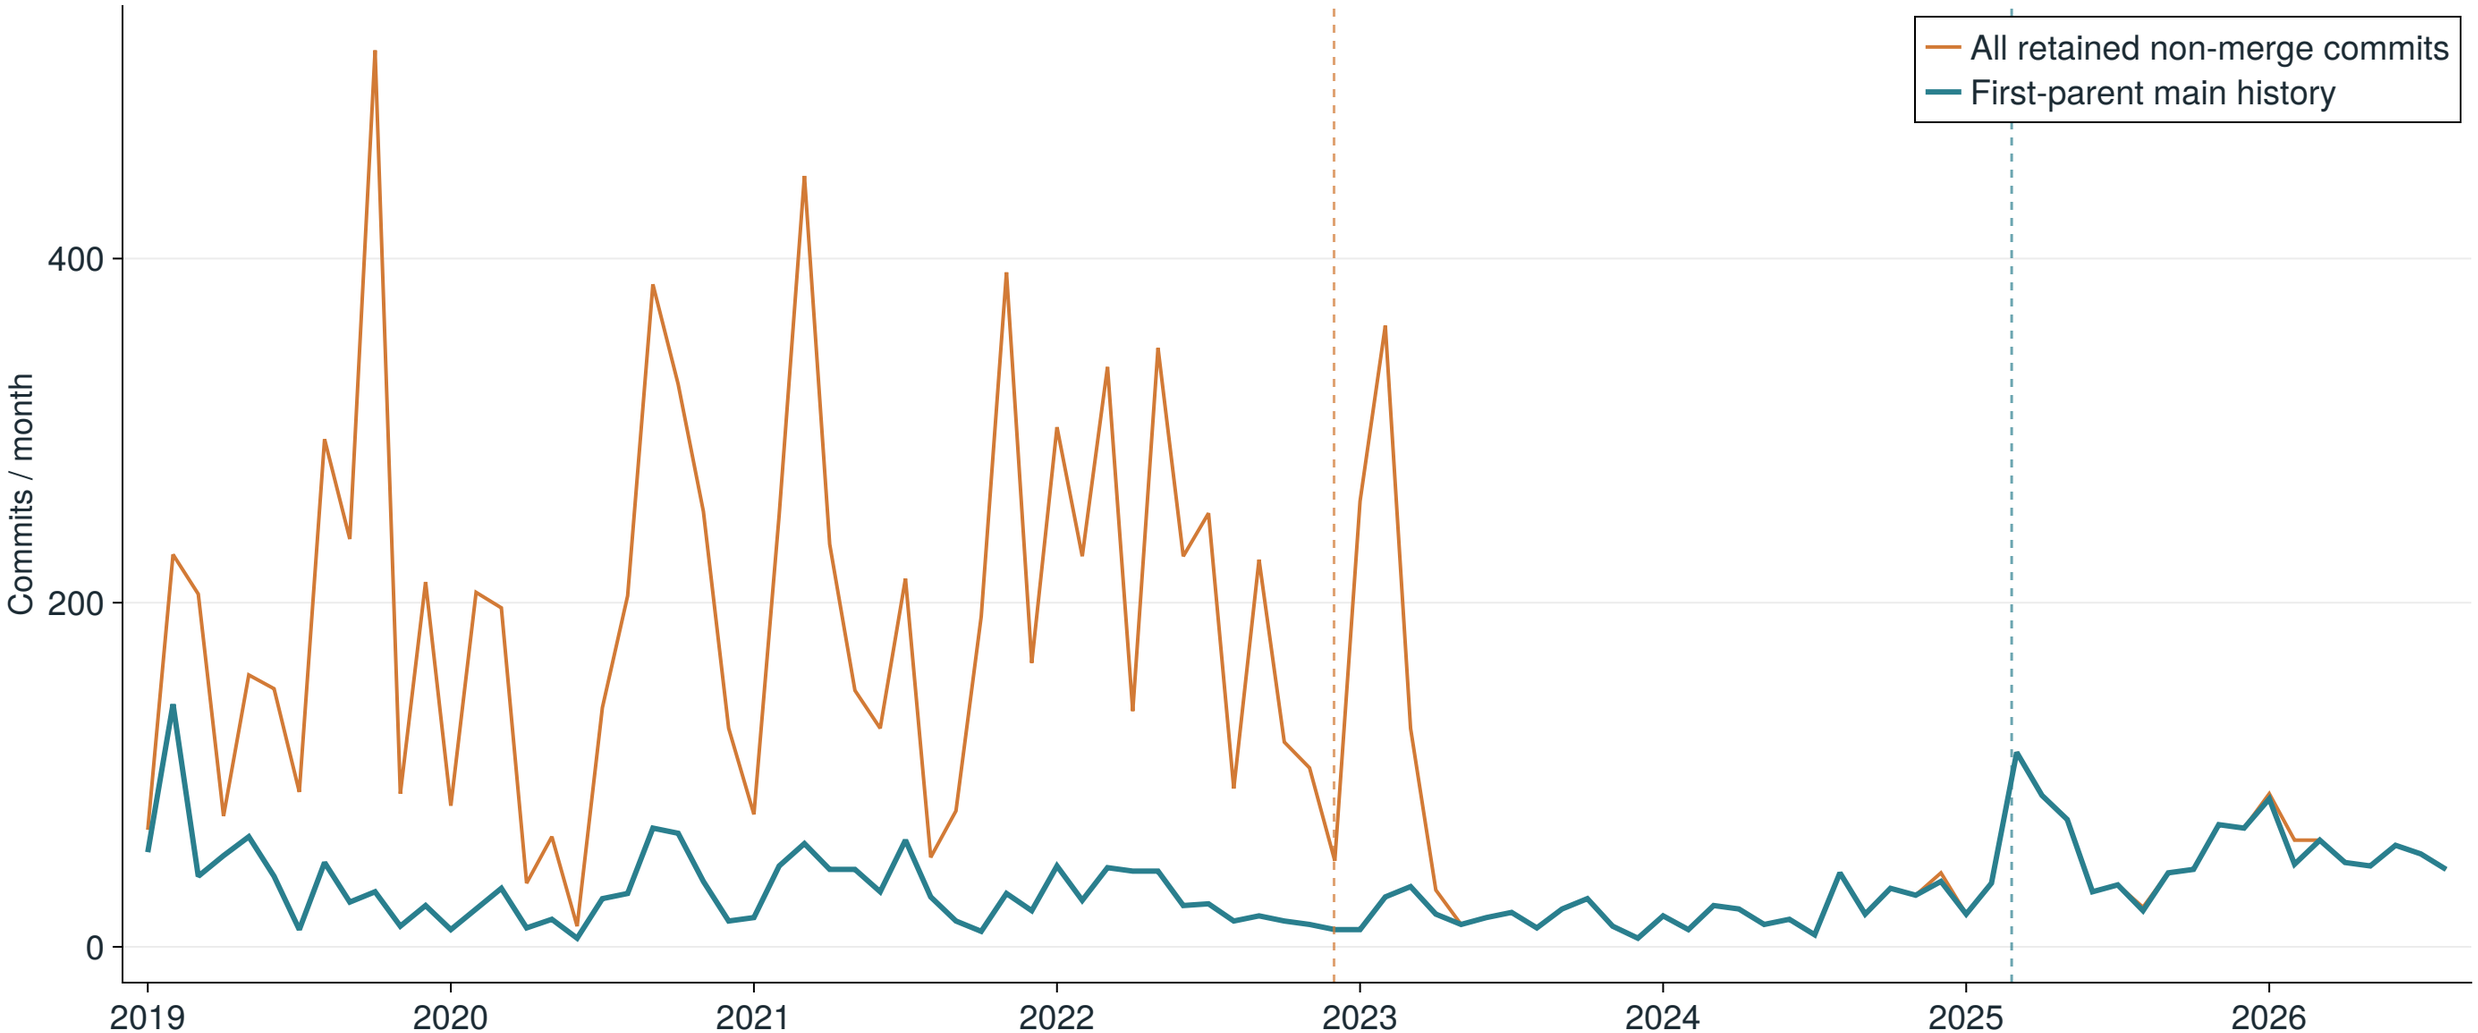
Raw commit counts change when the merge workflow changes

Oceananigans main-branch history, January 2019–August 2026



Source: main history at b9725744cd31, 30 Sep 2026. Known bot identities excluded; dates use committer time in UTC.
First-parent history follows main's integration path. Squashing removes intermediate branch commits from retained main history.
Dashed lines: ChatGPT (Nov 2022), Claude Code preview (Feb 2025). Raw commit totals are not a consistent productivity measure.
